## OBJECTIVE

Proactive Computer Science student specializing in Cybersecurity, with strong skills in secure backend development, Java Full Stack. Seeking opportunities to apply knowledge of security tools, validation techniques, and risk mitigation strategies to build resilient systems and protect organizational assets.

## EDUCATION

- |   |                            |
|---|----------------------------|
| • <b>Godavari Institute Of Engineering and Technology, RAJAHMUNDY</b> | <b>2023-2027(EXPECTED)</b> |
| Computer Science and Engineering -specialized in cybersecurity        | CGPA : 8.3                 |
| • <b>Dr. SRK &amp; KSR Jr. Degree College, NALLAJERLA</b>             | <b>2021-2023</b>           |
| M.P.C   | 82.1%                      |

## TECHNICAL SKILLS

- **Programming & Backend Development:** Java, Spring Boot.
- **Frontend Development:** Angular, React.
- **Web Technologies:** HTML, CSS, JavaScript
- **Database:** MySQL
- **Development &Tools:** VS Code (Moderate), GitHub (Moderate), Burp suite (Beginner), Kali Linux (Moderate), Wireshark(Beginner), Postman, Firebase Hosting, Network Security (Beginner)

## PROJECTS

- **Mini E-Commerce Platform**  
Built a farmer-to-buyer platform using **Angular, Spring Boot, Java, MySQL**. Designed accessible UI with icons and voice prompts, and developed a modular backend for scalability.
  - Applied basic input validation and secure coding practices
- **Sustainable Farming Market Place (ANGULAR, Spring Boot, Java, MySQL)**  
-For Microsoft Imagine Cup  
Created a marketplace with **Angular + Spring Boot** and integrated **MySQL**. Implemented CRUD operations for products and users with a focus on secure, scalable design.
  - Applied basic input validation and secure coding practices
- **Portfolio Website :-** Developed a personal portfolio using **Angular**, integrated **Email.js** for contact form functionality, and deployed on **Firebase Hosting**

## CERTIFICATONS

- **JAVA FULL STACK 6 MONTHS** -Issued By TECHWING GGU (2026)
