Professional Summary

Computer Science undergraduate with expertise in Java, Spring Boot, Angular, React, REST APIs, and MySQL, specializing in Cyber Security. Experienced in developing secure web applications with authentication, role-based access control, and cloud deployment. Strong foundation in DSA, DBMS, Operating Systems, and Computer Networks.

Education

Godavari Institute of Engineering and Technology, Rajahmundry **2023 – 2027**
B.Tech in Computer Science and Engineering (Cyber Security) **CGPA: 8.22/10**

Dr. SRK & KSR Jr. Degree College, Nallajerla **2021 – 2023**
MPC **Percentage: 82.1%**

Technical Skills

Programming: Java, Python

Core Concepts: Data Structures, Computer Networks

Backend: Java Spring Boot, REST APIs, JWT Authentication, Node.js

Frontend: HTML, CSS, JavaScript, Angular, React

Databases: MySQL, MongoDB

Tools: Git, Postman, VS Code, Figma

Operating Systems: Windows, Kali Linux

Cloud: AWS (Basics)

Projects

Hybrid Secure File Transfer System **Feb 2026**
Cyber Security | Angular, Spring Boot, Java, MySQL → GitHub Repo

- Developed a secure file transfer platform using Angular, Spring Boot, Java, and MySQL.
- Implemented authentication, role-based access control, and RESTful APIs.
- Integrated malware scanning, brute-force protection, and DoS mitigation features.
- Used Git and GitHub for version control and team collaboration.

Student Management System **Sep 2025**
Full Stack Project | Java, JSP, Servlets, MySQL → GitHub Repo

- Developed a full-stack Student Management System using Java, JSP, Servlets, and MySQL.
- Implemented CRUD functionality for efficient student record management.
- Integrated MySQL database using JDBC for secure data storage and retrieval.
- Followed MVC architecture to improve maintainability and scalability.

Stock Trading Platform **Jul 2026**
Full Stack Project | MongoDB, Express.js, React.js, Node.js (MERN) → GitHub Repo

- Developed a full-stack stock trading platform using the MERN Stack.
- Implemented JWT-based user authentication and portfolio management features.
- Built RESTful APIs for stock transactions and user management.
- Used MongoDB, Git, and GitHub for data management and version control.

Experience

Full Stack Developer Virtual Intern **Jun 2026 – Aug 2026**
SmartBridge Educational Services Pvt. Ltd. | APSICHE | Remote [View Certificate](#)

- Developed a Stock Trading Web Application using the MERN Stack.
- Built responsive user interfaces with React and implemented RESTful APIs using Node.js and Express.js.
- Integrated MongoDB for efficient data storage and management of user and trading data.
- Strengthened full-stack development skills through hands-on project implementation and collaborative learning.

Achievements

- GGU Hack Fest'26 – Round 2 Finalist (24-hour hackathon)
- Google UX Design Professional Certificate – Coursera
- IBM UI/UX Design Certificate – Coursera
