Professional Summary

Computer Science undergraduate specializing in Cyber Security with experience in Java, Python, Spring Boot, MySQL, REST APIs, Git, and full-stack web development. Skilled in building secure applications, API integration, database management, and collaborative software development. Passionate about AI-powered developer tools, automation, and creating scalable solutions that enhance engineering productivity and user experience.

Education

Godavari Institute of Engineering and Technology, Rajahmundry B.Tech in Computer Science and Engineering (Cyber Security) CGPA: 8.02 / 10	2023–2027
Dr. SRK KSR Jr. Degree College, Nallajerla MPC Percentage: 82.1%	2021–2023

Technical Skills

Programming Languages: Java, Python, SQL
Frontend Development: HTML, CSS, JavaScript, Angular
Backend Development: Spring Boot, JDBC, REST APIs
Developer Tools: Git, GitHub, Postman, VS Code
UI/UX Design: Figma, Wireframing, Prototyping, Auto Layout, Responsive Design
Operating Systems: Windows, Ubuntu, Kali Linux
Cloud: AWS Basics
AI-Assisted Development Tools: ChatGPT, Claude, Cursor AI, GitHub Copilot

Projects

Student Management System Full Stack Project Java, JSP, Servlet, MySQL	Sep 2025
- Designed and developed a full-stack Student Management System using Java, JSP, Servlets, and MySQL. - Implemented CRUD functionality for efficient student record management. - Integrated MySQL database using JDBC for secure data storage and retrieval. - Followed MVC architecture to improve maintainability and scalability. - Developed responsive user interfaces for streamlined academic administration.	
Secure File Transfer System Cyber Security Group Project Java, Angular, Spring Boot	Feb 2026
- Developed a secure file transfer platform using Java, Angular, and Spring Boot. - Implemented authentication, authorization, and role-based access control mechanisms. - Added brute-force attack prevention and DoS mitigation features. - Integrated ClamAV malware scanning to detect and block malicious file uploads. - Collaborated with team members using Git and GitHub for version control.	

Experience

Java Full Stack Intern, TECHWING Rajahmundry, Andhra Pradesh	Aug 2025–Mar 2026
- Developed and maintained web applications using Java, Spring Boot, JDBC, and MySQL. - Designed and implemented REST APIs for backend services. - Integrated relational databases and optimized SQL queries. - Utilized Git and GitHub for version control and collaborative development. - Participated in debugging, testing, deployment, and code review activities.	

Achievements

- Cisco Introduction to Cybersecurity (2024)
- Participated in GGU Hack Fest (2026)

Certifications

- IBM SkillsBuild UI/UX Design Fundamentals
- Postman API Fundamentals Student Expert
- Salesforce Agentblazer Champion
